Project Design Phase - II
Data Flow Diagram & User Stories

Date	28 October 2022
Team ID	PNT2022TMID51528
Project Name	Project - Detection of Parkinson's disease using Machine Learning
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.
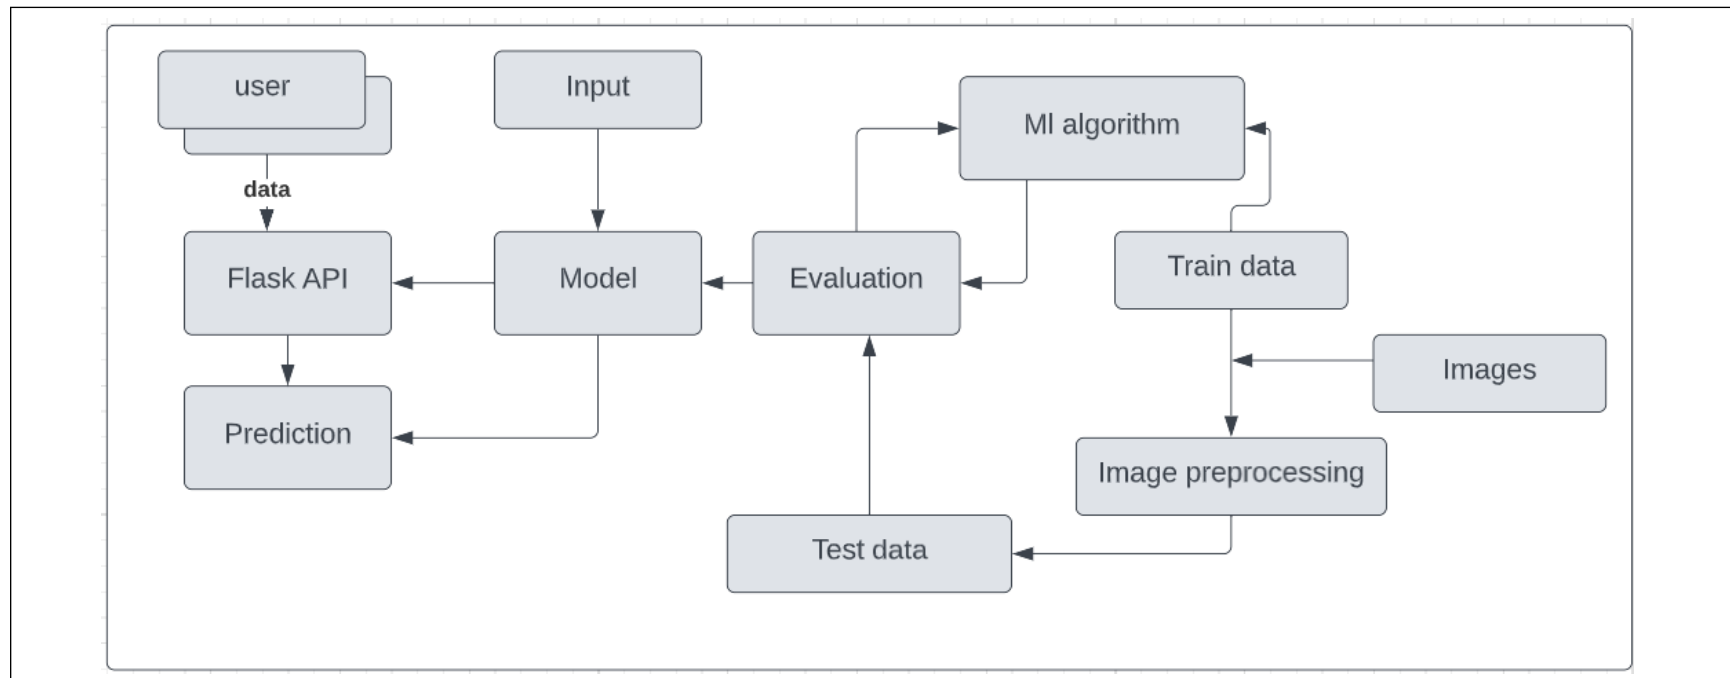

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
User	Uploading thedata	USN-1	As a user, I have the input data by using which I need to detect the Parkinson's disease	I can access my account /dashboard	High	Sprint-1
		USN-2	As a user, I will upload the data in the FlaskAPI	I can upload by uploadingor submit button	High	Sprint-1
		USN-3	As a user, I can get the prediction done by ML algorithm as the output.	I can see the result in the Flask API interface	High	Sprint-2
